WORK EXPERIENCE

Shirke's Media Pvt. Ltd, Pune

Roles And Responsibility:

- Develop and maintain responsive web applications using React.js, Next.js, and Redux.
- Optimize UI/UX, performance, and accessibility across devices.
- Integrate APIs and collaborate with backend teams.
- Write clean, maintainable, and scalable code.
- Resolve technical issues to improve development efficiency.
- Maintain code documentation for team collaboration.

PROJECTS

Anand Lagooapte

Developed a real estate website for Anand Lagoo Apte, designed to showcase and sell premium 2 & 3 BHK flats. The platform provides a seamless user experience, enabling customers to register, log in, browse properties, and successfully submit leads via email.

Key Contributions:

- Built a responsive, user-friendly UI using React.js, HTML5, CSS3, Bootstrap5 and JavaScript.
- Integrated lead capture functionality with backend email processing.
- Optimized website performance for faster load times and smooth navigation.
- Ensured cross-browser compatibility and mobile responsiveness.

Sunnys World Pune

Developed a fully responsive website for Sunny's World Pune, a 3-star resort spanning 100 acres, offering accommodations, event spaces, restaurants, a spa, corporate event facilities, and an adventure resort. The platform enables customers to pre-book stays, event venues, and activities seamlessly, enhancing convenience and user experience.

Key Contributions:

- Developed the website using HTML5, CSS3, JavaScript, and Bootstrap, ensuring a responsive and visually appealing interface.
- Implemented a secure contact form with login functionality, prioritizing data security and user privacy.
- Collaborated with the design team to maintain a consistent UI/UX, aligning with brand aesthetics and usability standards.
- Improved website performance, accessibility, and mobile responsiveness for better user experience.
